## PREFACE

This report presents selected data from the 1981 Census for each of the Provincial Electoral Districts in Ontario. It has been produced by the Sectoral and Regional Policy Branch of the Ministry of Treasury and Economics. This document is supplementary to the original **1981 Census Data by Provincial Electoral Districts** publication. Data items are from profiles developed by Statistics Canada and include labour force, income, education and mobility statistics.

The data were produced and rounded by the Census Operations Division of Statistics Canada, working to geographic specifications supplied by the Sectoral and Regional Policy Branch. Because the boundaries of the electoral districts do not always follow the boundaries used in the census an estimation procedure had to be applied in some cases. While the loss of accuracy resulting from this estimation procedure is minimal, users should be aware that data in this publication are not fully consistent with other census data supplied by Statistics Canada. Enquiries should be addressed to Jan DePoe, Manager, Statistics Section, at 965-0955.
